

'HARI BARI NAGRI TWIST'

A CELEBRATION OF HEALTHY LIVING

'Haribari Nagri' was a vibrant and educational activity organized for our SR.K.G students on 31st July to create awareness about the importance of vegetables and healthy eating habits.

The school classrooms came alive with colour and enthusiasm as our little ones came dressed as green grocers and farmers, carrying baskets filled with vegetables they represented. Each child confidently spoke a few sentences about their allotted vegetable, highlighting its nutritional value, health benefits and importance in our daily diet.

The activity provided an excellent platform for students to develop their confidence and communication skills while learning about the value of fresh vegetables and the hard work of our farmers. It was a delightful blend of fun, creativity and hands-on learning that left a lasting impression on everyone.

'Haribari Nagri' was truly a joyful and enriching experience, inspiring students to make healthy food choices and appreciate the goodness of nature.

'EAT YOUR VEGGIES, GROW HEALTHY AND STRONG!'
