

## **PENCIL SHAVING ACTIVITY**

On Friday, 12th September, the Senior KG students of divisions A, B, and C enjoyed a fun and creative Pencil Shaving Activity. They used colorful pencil shavings to create beautiful designs on paper. With great enthusiasm, the little ones made flowers, birds, and different patterns by carefully pasting the shavings in various shapes.

This activity not only allowed the children to express their creativity but also helped improve their fine motor skills and hand-eye coordination. Everyone had a joyful time exploring colors and textures, making the learning experience both enjoyable and educational.
