

Finger-Printing and Ice-Cream Stick Activity

Date: 12th January 2026

Class: Pre-Primary – Senior Kg. (Div A, B & C)

On the 12th of January 2026, the students of Senior kg. Divisions A, B and C enthusiastically took part in a Finger-Printing and Ice-Cream-Stick Activity. This engaging hands-on activity allowed the children to explore colours, textures, and simple structures by using their fingers and ice-cream sticks to create beautiful houses, trees, and nature-themed artwork. The classroom was filled with excitement as the children expressed their ideas freely while learning through play.

Purpose & Importance of the Activity:

- * To develop fine motor skills and finger strength essential for early writing.**
- * To improve hand eye- co-ordination and grip control.**
- * To promote sensory exploration through touch and colour.**
- * To encourage creativity, imagination, and self-expression.**
- * To build concentration, confidence, and teamwork among young learners.**

The activity provided a joyful learning experience and contributed positively to the overall holistic development of the children.
