

# **Cotton Sticking Activity**

On Monday, 9th February 2026, a creative and engaging Cotton Sticking Activity was conducted for the students of Sr. KG Div A, B, and C at Little Angels Kindergarten. The activity was carried out under the careful guidance and supervision of their respective class teachers.

For this activity, three separate charts were prepared, and each class worked together on their own chart. The students enthusiastically participated as a team, applying glue and gently sticking soft cotton onto the outlines to create beautiful, fluffy designs. With tiny hands at work and cheerful smiles all around, the classrooms were filled with excitement and teamwork.

This group activity encouraged cooperation, sharing of materials, and collective creativity. Each division proudly completed their chart, showcasing wonderful coordination and effort. The teachers guided the children at every step, ensuring that the learning experience was both enjoyable and meaningful.

## **Importance and Benefits of the Activity**

- **Enhances fine motor skills and finger strength.**
- **Improves eye-hand coordination.**
- **Encourages teamwork and cooperation.**
- **Boosts creativity and imagination.**
- **Develops focus and patience.**
- **Builds confidence through group participation.**
- **Provides a rich sensory experience through texture exploration.**

The Cotton Sticking Activity was a delightful blend of learning and fun, helping our little learners express themselves creatively while working together as a team.
